

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Clinical research trainee in Child Neurology

Pediatric Neurology

We are seeking for a candidate who wants to start his/her career in research in neurology, focused on rare neurological disorders. The candidate will participate in the clinical research area of our group, mainly devoted to the development of a curated database of therapies in rare ataxias (treatabome), and projects related to muscle imaging. The candidate will be participate in other ongoing research projects and in our clinical trial medical team. Our idea is to offer a flexible, part-time position, which could be combined with highly-demanded clinical positions in Catalonia to continue the development of clinical abilities.

JOB DESCRIPTION
