

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Microbiologist

Virology Section - Microbiology Department

Vall d'Hebron Research Institute (VHIR) is a public sector institution, located in Barcelona (Spain) that promotes and develops innovative biomedical research at the University Hospital Vall d'Hebron. VHIR is oriented towards finding solutions to the health problems of the citizens and has the will to contribute to the scientific, educational, social and economic development within its area of competence.

The Virology Section is seeking a highly motivated microbiologist interested in the diagnosis of sexually transmitted infections.

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor's Degree in Biosciences.
- Specialist in Microbiology and Parasitology.
- Good communication skills and fluency in spoken and written English (minimum level in English: C1).

Desired:

- Specific training in research methodology in Health Sciences and management of clinical database (STATA, Microsoft Access) will be valued.
- Additional training in Molecular and Cell Biology.

Experience and knowledge:

Required:

- At least 3 years of experience working in clinical microbiology.
- Knowledge of diagnostic techniques in sexually transmitted infections.

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

- Experience in molecular techniques applied to the characterization of sexually transmitted pathogens.
- Proactive, dynamic and outstanding organizational skills are required.
- Experience in data management, databases maintenance and statistics.

Desired:

- Previous Experience in an International Research Laboratory.

Main responsibilities and duties:

- Development and implementation of molecular and serological techniques for the diagnosis of sexually transmitted infections.
- Maintenance and up-to-date of microbiological databases of sexually transmitted infections.
- Management of project documentation.
- Writing scientific reports and papers.
- Database management.

Labour conditions:

- Full-time position: 40h/week.
- Starting date: Immediate.
- Gross annual salary: € 24.658,62 (Remuneration will depend on experience and skills. Salary ranges are consistent with our Collective Agreement pay scale).
- Contract: Permanent linked to project.

What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops the biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
- Continuous learning and a wide range of responsibilities within a stimulating work environment.
