

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

**VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.**

# Clinical Researcher

## Research Group on Status Epilepticus and Acute Seizures

Multidisciplinary clinical research team that collaborates in the development of new treatments through participation in clinical trials and clinical research projects to improve the quality of life of patients with epilepsy. The scientific challenge of the group is based on understanding, improving and strengthening knowledge about the different fields of epilepsy and how to help solve problems related to epileptic seizures and their consequences.

The group wants to incorporate to its team a Clinical Researcher to give support on different research projects of the group.
