

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Research Technician

Systemic Autoimmune Diseases Research Group – Microbioma Research Group

VHIR offers a position for a Research technician within the Systemic Autoimmune Diseases and Microbioma Research Groups to participate in a project that investigates the role of gut microbiota in the development of antiphospholipid syndrome.

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor's Degree in Biology, Biochemistry, Biomedicine or similar

Desired:

- Fluency in Catalan, Spanish, English
- Certificate for handling animals for research use

Experience and knowledge:

Desired:

- At least 1-2 years working in a research laboratory
- Experience in blood cells isolation, molecular biology techniques or cell culturing
- Experience in animal experimentation (mainly in mouse handling)
