

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Physiotherapist

Neurological Rehabilitation and Brain Injury Unit

We provide comprehensive and intensive care to patients with stroke, head injury or acquired brain injuries working in a multidisciplinary team: physiatrist, physiotherapist, occupational therapy, speech therapist and neuropsychologist. Our aim is to ensure the continuity of care for the patient with acquired brain injury during the different stages of the rehabilitation process including novel technologies

The Neurological Rehabilitation and Brain Injury Unit (Neurorehabilitation Knowledge Area) has participated together with the Neurovascular Research Laboratory (VHIR), in three research projects funded by the Carlos III Health Institute, aimed at finding biomarkers to monitor and predict the recovery of stroke patients after intensive rehabilitation programs (PRI). The aim of this research is to be able to find neuro-repair markers that allow us to individualize rehabilitation therapies and move towards personalized neurorehabilitation medicine.

JOB DESCRIPTION

Education and qualifications:

Required:

- Degree in Physiotherapy/ Occupational Therapy.
- Specific/Additional training in Neurorehabilitation, validation of novel technologies, virtual reality and/or telerehabilitation tools.
- Fluency in English (business level)

Desired:

- Specific/Additional training in Neurorehabilitation Team work.
- Fluency in Catalan, Spanish.
