

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Research Technician position

Ophthalmology

We seek a highly motivated and experienced Research Technician to join our team. This role will be critical in advancing our understanding of retinal degenerative diseases and identifying novel therapeutic targets. The team is focused on developing in vitro retinal organoid models for drug discovery, disease research and developing new therapies for retinal diseases

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor's Degree and Master in Biomedicine Sciences
- Animal experimentation course
- Fluency in Catalan, Spanish

Experience and knowledge:

Required:

- Minimum 1 years of experience in animal handling and ocular surgery techniques
- Minimum 2 years of experience in cell culture, with a strong focus on hiPSC and organoid development
- Solid understanding and experience with various molecular biology techniques, including IHC/ICC, PCRs, western blots, and confocal microscopy
