

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

**VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.**

## Pre-doctoral Researcher

### Infection in Immunocompromised Pediatric Patient Research Group

VHIR offers a vacant position for a pre-doctoral researcher with background in Immunology for the Infection in Immunocompromised Pediatric Patient Research Group

#### JOB DESCRIPTION

##### Education and qualifications:

###### Required:

- Degree in Biosciences (Biology, Biomedicine, Biotechnology, Biochemistry, Human Biology, Genetics, etc.).
- Master in Biosciences (Biosciences, Biomedicine, Immunology, Genetics, Biochemistry, etc.)
- In disposition to being admitted to a Doctorate program during the 2024-25 academic course

##### Experience and knowledge:

###### Required:

- High interest in science and scientific methods.
- Proven experience in advanced flow cytometry, panel design, equipment calibration.
- Experience in manual and semi-automated western blotting.
- Experience in ELISA techniques.
- Experience in cell cultures and cell isolation.

###### Desired:

- Previous experience with the group or similar groups.

- Ability to answer scientific questions through experimental design.
- Publications in scientific journals.
- Experience in diagnosis and/or genetic analysis of primary immunodeficiencies.
- Management of anonymized patient databases.

### Main responsibilities and duties:

- Performance of immunological studies (wet-lab).
- Participation/assistance in manuscript writing for publication in scientific journals and/or presentations.
- Search of pertinent scientific literature as needed.
- Assistance in ordering and procurement of supplies and equipment and with general maintenance of laboratory.
- Updating internal databases.

### Labour conditions:

- Full-time position: 40h/week.
- Starting date: immediate.
- Gross annual salary: Salary according to PFIS table
- Duration: 4 years
- Contract: Temporary Phd contract

### What can we offer?

- Incorporation to Vall d'Hebron Research Institute (VHIR), a public sector institution that promotes and develops biomedical research, innovation and teaching at Vall d'Hebron University Hospital (HUVH), the biggest hospital of Barcelona and the largest of Catalan Institute of Health (ICS).
- A scientific environment of excellence, highly dynamic, where high-end biomedical projects are continuously developed.
- Continuous learning and a wide range of responsibilities within a stimulating work environment.
- Individual training opportunities.
