3.- EVALUATION PROCESS

In April 2015, VHIR was recognised with the accreditation “HR Excellence in Research” of the European Commission (also known as “HRS4R”). In 2021 the HR Excellence in Research seal was renewed. This accreditation is based on the “European Charter for Researchers and Code of Conduct for the Recruitment of Researchers (Charter & Code)” and obtaining the seal of HR Excellence in Research ensures that VHIR integrates into its human resources policies the 40 principles of the Charter & Code, based on a customized action plan/HR Strategy.

Our Recruitment and Selection Policy is based on the OTM Strategy (Open, Transparent and Merit-based recruitment) and in line with the principles defined in the OTM-R (VHIR Recruitment Policy for an Open, Transparent and Merit-based Recruitment of Researchers).

The evaluation process consists of 3 Phases:

First Stage: Once the application period ends, the responsible unit (Internal Strategy) will review the documentation and verify eligibility. **Amendments required by the responsible unit can be submitted during the established period to do so.** After this period, amendment of errors and/or omissions in the submission of documentation will not be admissible.

Second Stage: Based on an OTM-R strategy, the **Internal Assessment Committee (IAC)** (*Comisió d’Avaluació Interna, CAI*) will evaluate the applications.

The main selection criteria will be scientific and academic excellence based on the documentation received from each candidate and added-value for VHIR:

- **Candidate profile (up to 70 points):** education (i.e *Formación Sanitaria Especializada (FSE)*), publications, mobility, research funds (including grants as PI or individual competitive fellowship corresponding to this stage of the career), Innovation and transfer activities, and dissemination and communication activities.
- **Project proposal (up to 30 points):** quality of the proposal, adequacy of the candidate profile to the centre, and viability and opportunity will be evaluated.

The **Internal Assessment Committee (IAC)** will provide an indicative numerical grade between 1 and 100, which will be used to generate a shortlist. A minimum of 70 points will be requested to candidates to be selected for the interview stage. The pre-selected candidates will be invited for an interview at VHIR and they will be informed by email.

Proactive identification and invitation of competitive woman applicants by faculty members is encouraged at the opening of every selection process. It is compulsory that none of the genders have underrepresentation (at least one third of the shortlisted candidates in any case).

To know more information, please review Annex 1 "Phase 2 Merit Evaluation Criteria".

Third stage: Based on OTM-R principles, the **interview** will be held by the Selection Committee. The Selection Committee will consist of VHIR internal members, members from the External Scientific Advisory Board and VHIR's Director. The Selection committee should bring together diverse expertise and competences and should have an adequate gender balance.

The interview will include the following aspects:

- Presentation of the present project and integration within the research group
- Presentation of future research plans and independence of the research group
- Added-value for VHIR²

Once the interview process is finished the Selection Committee will make a prioritized list and first candidate will be granted and informed by email.

To know more information, please review Annex 2 "Interviews Evaluation Criteria".
